SCHOOL LUNCH AND  
FOOD DISTRIBUTION PROGRAMS  
SELECTED STATISTICS, FISCAL YEARS 1939-50

Introduction

Data, by States and by years, for the school lunch and direct distribution programs are given in tabular form in this report. Current data for each of these statistical series may be obtained from the Food Distribution Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C. The data pertain to the following programs:

National School Lunch Program. Under section 32, Public Law No. 320, 74th Congress, approved August 24, 1935, schools became eligible to receive surplus commodities from the Federal Government for use in school lunch programs. War-time supply problems prompted a change in 1943, when a program of cash reimbursements to participating schools on the basis of the number of meals served was initiated. Although most of the food served has since been purchased locally, distribution of federally purchased commodities has continued to be important, particularly in postwar years.

The National School Lunch Act, Public Law No. 396, 79th Congress, June 4, 1946, established the program on a permanent basis. The act provides for an annual appropriation to be used in two ways. Cash grants are made to State agencies responsible for administering the program, to make reimbursements for school lunches. In addition, commodities, purchased under section 6 of the School Lunch Act, which permits use of part of school lunch appropriations for bulk food purchases by the U. S. Department of Agriculture, are provided to participating schools through State distributing agencies.

School Milk Program. The school milk program, popularly known as "penny milk," was initiated in 1940 to expand markets for milk under authorization of section 32. In July 1943, this activity was merged with the National School Lunch Program.

Section 32. Section 32 (Public Law No. 320, 74th Cong.) and related legislation authorize the purchase and distribution of foods under surplus removal programs as one method of encouraging consumption of agricultural commodities. Nonprofit elementary and secondary schools, charitable institutions, and welfare agencies are eligible to receive section 32 commodities from State and local distributing agencies which handle the physical distribution of commodities donated by the Federal Government.

Section 416. This program was initiated in January 1950, pursuant to section 416 of the Agricultural Act of 1949, Public Law No. 439, 81st Congress, October 31, 1949. This section provides that commodities acquired by the Commodity Credit Corporation under its loan and direct purchase programs, and which are in danger of deterioration, may be distributed to various designated categories. Schools, institutions, the Bureau of Indian Affairs, and welfare agencies, public and private, are the domestic outlets declared eligible by the act. Recipient agencies must pay the freight for these commodities from the point of storage.

Public Law 471. Special legislation authorizing the distribution of 1949-crop potatoes on a freight prepaid basis was passed by Congress on March 31, 1950 (Section 3, Public Law 471, 81st Cong.).

<sup>1/</sup> Cash programs include the school milk program, Federal cash payments under the National School Lunch Program, and Federal grants for school lunch equipment. The cost of commodities pertains to commodities distributed to schools under Section 32 (1939-50), Section 6 (1947-50), Section 416 of the Agricultural Act of 1949, and P. L. 471 (1950).

<sup>2/</sup> Estimates based on unit value of commodities shipped to all States.

<sup>3/</sup> Includes \$9,697,000 expended for equipment.

<sup>4/</sup> Preliminary.

<sup>5/</sup> Less than \$500.

<sup>6/</sup> No program in public schools.

1/ Total cost to the Government of the commodity as delivered to the State distributing agency; includes cost of purchase, handling, warehousing, and transportation, but does not include costs of administration of the program.

2/ Breakdown by States not available. These estimates made on the basis of an average cost of total distribution.

3/ Includes \$11,562 for Indian reservations.

4/ Includes \$10,334 for Indian reservations.

Table 12.—Quantities of Section 6 commodities distributed to schools under the National School Lunch Act, by commodity, fiscal years 1947-50.

Commodity	1947	1948	1949	1950
- - - - - thousand pounds - - - - -

<sup>1/</sup> Deliveries under P. L. 471 program began in April 1950; Section 416 program in January 1950.

<sup>2/</sup> Cost figures for P. L. 471 program represent total cost to the government of the commodity as delivered to central receiving points within the States; cost figures for Section 416 program represent commodity cost only since recipient agencies were required to pay freight and miscellaneous handling charges from point of storage.
